

BURRIS AC SERIES

Long lasting vinyl backed by a trusted brand.

FEATURES

Stronger Frames Than Ordinary Vinyl

Burriss' precision welding process creates more durable products that resist warping or twisting over time. Made in 1/8" increments, these windows fit precisely and securely.

Durable Laminate Exterior Finish

Dual-color frame options offer white interior with black laminate exterior. Vinyl laminate is 2.6x more durable than painted vinyl.

Energy-Efficient Multichambered Frame

Burriss' windows come with a multichambered frame and fully welded sash to improve the strength and thermal performance.

Fade-Resistant Vinyl Formula

Burriss TectView AC Series is made of high-grade vinyl that resists yellowing and never needs painting. The solid color throughout the vinyl keeps minor dings and scratches virtually invisible. Solid-color frames are available in White, Almond or Fossil.

COLORS

Create a signature look with solid-color and dual-color frames. Dual-color frames allow you to choose a different color for the exterior with a white interior.
